The table above shows the percentage of cases the ombudsman service resolved in the six-month period from 01 Jan to 30 Jun 2015 - that resulted in a change in outcome in favour of the consumer (comparing the financial business's response to the consumer's complaint and the final outcome after our involvement).

\* Where no figure is shown, either there were no cases - or there were fewer than 30 cases and the percentage would not be statistically meaningful.

**business name:** the names listed alphabetically in this column are the official names by which businesses are regulated.

**business group:** this column shows the name of any larger group that the individual business was part of at the end of the six-month period.
